

Online CE Content Review Committee Volunteers Needed

The California Society for Respiratory Care (CSRC) is looking for practitioners who would like to serve as members of the Online Continuing Education Content Review Committee. We are seeking members who can contribute a diverse expertise in Respiratory Care and healthcare and review CEU courses submitted for potential offering through the CSRC.

Under the leadership and facilitation of the Committee Chair, Ray Hernandez, committee members will review course proposals; attend monthly web conference meetings; and provide feedback, edits and comments. This is a great opportunity to give back to your profession, volunteer for your CSRC organization, and contribute to high quality educational opportunities for practitioners in the state of California.

If you are interested in serving or have further questions, please contact:
